

User agreement with the Imaging Core Facility (ICF) of the Research Center for Immunotherapy

Principle Investigator:

Working Group:

Department:

E-Mail:

Phone:

Member of the FZI: yes no

I am aware that the Core Facility is a service unit of the FZI and that the personnel, equipment and consumables are (partially) financed by the FZI. With my signature I declare to name the FZI as an affiliation in all publications. Furthermore, I will acknowledge the funding via the FZI in the acknowledgements section. I agree that data generated in the core facilities of the FZI can only be published after consultation with the respective core facility manager. Necessary co-authorships are communicated to the lead author of the publication by the Core Facility Manager in accordance with the rules of good scientific practice and must be accepted. In addition, I undertake not to pass on any information about the conditions of the Core Facility to third parties.

I declare that I will mention the affiliation of the equipment to the FZI in the context of third-party funding applications for the planned use of the FZI Core Facilities and that I will indicate the FZI as a research focus center when opening a University Medical Center (UMC) account/cost center and at WIMS (Wissenschaftsmanagement System of the UMC).

Should I violate any of the above rules, I am aware that this may lead to my expulsion from the FZI and may result in standard market prices for the use of the core facilities.

If I am not a member of the FZI, but an employee of the University Medical Center Mainz or the Johannes Gutenberg University, the services of the Core Facility are available to me at the standard market prices, provided that the Core Facility is not fully utilized by FZI members.
